Chairman's Letter

All IITians are not successful and not all successful people are IITians. Having this perspective, our teaching methodology is focused on holistic development of next generation. Vibrant, integrated, flexible and innovative programs at Career Point institutions have clear purpose of students' all round education

Dear fellow shareowners,

The word "education" is derived etymologically from "educare", which implies "to lead out". Instead of just satisfying the knowledge needs of a learner, education should aim to build-in leadership and diverse professional expertise. Focus on life-skills shall be used in parallel to organized coursework and professional teaching practices to transform students in to visionary change agents.

The theme of this annual report 'Care leads to Career' perfectly complements our basic values and business practices. Academic Excellence, Practical Training, Conducive Environment and Learning beyond Classrooms are essential pillars and guiding principles of education delivery process at Career Point institutions. We continually invest and proactively ask our users and experts for their participation in creating new learning solutions. We intend to ensure that our resources are contextualized to be relevant to the local dynamics and present scenario.

I frequently quote our students that all IITians are not successful and not all successful people are IITians. Having this perspective, our teaching methodology is focused on holistic development of next generation. Vibrant, integrated, flexible and innovative programs at Career Point institutions have clear purpose of students' all round education which not only benefit students in achieving their short-term goals but also provides a life-long learning.

The year at a glance

In the year under review, we enrolled more than 20,000 students in our tutorials services programs and close to 3,500 enrollments vs about 2,000 in year before at various formal education units under Career Point Universe. The uncertainty at tutorial division coming from regulatory challenges was known since beginning of the year. However, the increasing trend of new enrollments endorses our claim that the change in examination pattern was a temporary phenomenon and will be neutralized going forward. We expect this division to emerge much stronger due to new initiatives such as residential coaching, school integrated programs, and technology based solutions which have more visible and less volatile business prospects.

Despite challenging market dynamics, we continued our focus on sustainability of our operations and committed to increase the quality of academic deliverables while maintaining the cost efficiency. The delivery of a

reasonable performance further underscores the fact that the company has a well-balanced business model with diverse revenue streams which can counter any adversity. It draws attention that how well the team has remained focused on its core business strengths. A significant and increasing contribution from the formal education division during the year was quite exciting and promising a long-term sustainable business to the company.

Coming to financials in brief, total income for the financial year 2013-14 on console basis was reported at ₹78.01 crores with about 20% lower than previous year, primarily due to the drop in enrollments at tutorial services division. EBITDA for the full year was stood at ₹22.49 crores with margin of 28.8%. Capitalization of new buildings was resulted an increase in depreciation charges. The consolidated net income for the company was realized as ₹9.44 crores for this fiscal with net margin of 12.5%. As on 31st of March 2014, the net worth of the Company was ₹3.3 billion.

Accomplishments

Amid all the business challenges and regulatory hurdles, the company has managed to add a strong foundation for future growth. Various new initiatives and business ventures are expected to accelerate the growth path for the company, going forward. Successful completion of first year of our residential coaching project, adding new offerings at formal education division and an entry in to vocational education space are some of the key highlights of the year. During the year, we have also signed new partnerships and added new courses with their respective regulatory approvals at our higher education institutions.

A phenomenal response from the students to CP STAR – our Scholarship Test for Admissions and Reward - sets an exciting platform for coming academic sessions. CP Gurukul – Career Point's residential coaching cum school facility has also been positioned very well to ensure tutorial division's healthy growth in future years. Addition of new tie-ups on school integrated programs along with renewal of existing associations further indicates our partners' advanced trust in our delivery of tutorial programs.

Various academic and non-academic events including Scientific and entrepreneurial workshops, Educational seminars and conferences, Socio-cultural activities at Career Point institutions have attracted lot of praise among media, peers and society. Enrolling more than 100 research scholars in doctorate programs at various disciplines also demonstrates an academic excellence of our higher education institutions. The strong foundations of these institutions, which are built for decades, certainly place Career Point in to a very unique club.

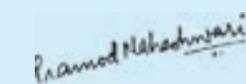

Outlook

Over the journey of more than two decades, Career Point has earned a reputation of creating a bright future with strong foundations while delivering great value to each stakeholder. The focus of our company today is to be established as a premier player in global education space. We have a quite robust strategy to accomplish the vision.

With presence across the education value chain, Career Point would exploit strategic advantages with integrated solutions to strengthen its positioning in different verticals i.e. school education, tutorial services, higher education, e-Learning solutions and vocational education. The company is poised at an exciting juncture and well positioned to step in to another level of growth. We will also broaden the service offerings and increase geographical presence through selective strategic acquisitions and JVs.

A committed team is an important ingredient for building an institution with excellence. I would take this opportunity to express my sincere appreciation for the dedicated efforts and valued contribution by the employees at all level. On behalf of the Board, the Executive Management Committee and the entire Career Point team, I thank all our stakeholders for their valuable trust and continued support.

With best wishes

“ 58% एवं 68% अंक, फिर भी
कॅरियर पॉइंट के साथ हुए सपने साकार

मैं ओम प्रकाश कुमार CP का एक साल नियमित Classroom Student रहा हूँ। मेरे पिता किसान हैं। मेरे बिहार बोर्ड से 12वीं में 58% अंक आये। बोर्ड में Marks कम आने पर भी मैंने हार नहीं मानी। कॅरियर पॉइंट ने विशेष छात्रवृत्ति प्रदान की जिससे कोटा आकर पढ़ाई करने के लिए मदद मिली। 2013 में नीट (यूजी) में 21000 रैंक आई थी फिर 2014 में कॅरियर पॉइंट से तैयारी कर अखिल भारतीय स्तर पर 49वाँ रैंक तथा ओबीसी में छठा स्थान प्राप्त किया।

जहाँ अन्य संस्थानों में विद्यार्थी भीड़ में खो कर रह जाते हैं, वहीं मेरे जैसे विद्यार्थी पर भी कॅरियर पॉइंट Faculty Team ने विशेष ध्यान दिया।

मेरे भाई ने जिसके 12वीं में 68% अंक थे, ने भी प्रथम प्रयास में ही CP की मदद से अखिल भारतीय स्तर पर 69 रैंक एवं OBC में 10 वीं रैंक हासिल कर सपना साकार किया।

मैं अपनी सफलता के लिए अपने माता-पिता एवं कॅरियर पॉइंट परिवार का हमेशा आभारी रहूँगा। तथा अपनी सफलता का श्रेय भी इनको ही देता हूँ।

We found the ambience is very secure here. We are observing the real life outside the Kashmir. Here the climate, boarding, lodging all are good. Many girls from Kashmir are studying here, that is why I have never ever felt alone.

“ I really found Career Point as my family
which provided ultimate personal care,
support and guidance

I, Anuj Nagpal, one year classroom program of Career Point writing this letter to thanks all the members of Career Point who helped me to achieve this goal.

I admired Career Point since, with the success of my brother Ashish Nagpal who secured AIR 164 in 2012. The result oriented guidance and ultimate personal care at Career Point helped my brother to gain his confidence back after being demoralized by attitudes of other institutes in class XI and XII.

He then suggested me to take admission at Career Point for JEE and today I am extremely happy to secure AIR 190 in JEE Advanced 2014. All credit goes to CP Faculty team and specially SM Sir for regular motivation and academic help.

My father, Kime Kamiz is working as DCP in Police Department at Guwahati. The standard of school education there is not satisfactory and teaching level is not up to the mark. After joining CP-Gurukul, at first I thought that I came too far for study but then I saw that there are many students from my zone i.e Manipur, Meghalaya, Arunachal and Assam.

Give sermons to children as well

I came here with my daughter Ranjivanshi Singh and both of my sons Amrit Singh and Karanveer Singh. My daughter is in class 11th this year and wants to prepare for IIT-JEE. In Delhi the coaching institutes are away from home, there the environment is not safe for children. You can't leave them alone. Here everything is in one campus. All three of them are very happy to be here. I am linked with a social NGO. Here while staying in flat I give sermons to children; "Roz Ishwar ka naam lekar, apnein sapnein kein saath jeena sikhein, aap isi lagan sein mehnat kartein raho, Ishwar aapkein sapnein awashya sach karega". [One should have faith in God and always live with your dreams, do hard work with full dedication, one day God will fulfill your dreams.]

Living with Children in CP Gurukul

Here the flat is better than home

I am a lucky grandmother. I got the chance to stay here with my grandson from Delhi. He is studying in Class 11th here and also preparing for IIT-JEE. We have searched many residential campuses on net but we have chosen CP-Gurukul because it provides a facility for parents to stay with their wards in the flat. In outside hostels students don't get quality food. Here he likes the atmosphere better than at home.

I heartily thankful to Career Point family for such a performance specially my teachers and parents who supported me to achieve this success. My decision to take admission in Gurukul is one of the best decisions. There all teachers and staff members supported me like my family members.

I studied in ICP batch, in this batch special attention is given to students which helped me to perform good in the exam. SM Sir supported me and motivated me at every stage. I belong to village, there is not a good system of education, but my father encouraged me to perform better and called me to join Career after XII. Career Point is one of the best institutes for IIT-JEE. I really thankful to Career Point all teachers and to my parents.

AIR-84, NEET-UG 2013

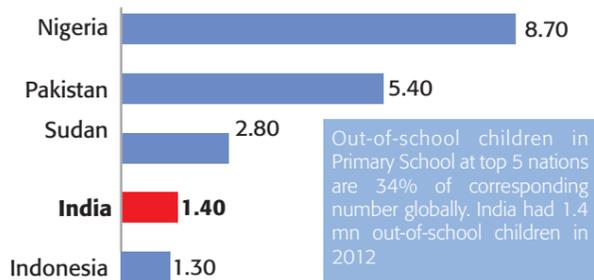

I, Anshuman Jha am a student of one year CP program. In 2012, when I first appeared in AIPMT my performance was not that good. But then, I joined CP and I was really glad that I had joined it. The matter was very concise. It helped me to focus on my weak as well as strong topics. The regular interaction with faculty team also helped me to rectify my weak points. The handbook provided helped to give a final touch and revision.

This year my AIR-95 (AI India quota rank of 84) was greatly due to the contribution of teachers at CP. The orientations and seminars held here also helped me to a great extent. The libraries were fabulous. Finally, I would like to thank the complete CP administration for giving me such a great platform to stand upon and I hope that CP produces many more highly talented students in the future and forthcoming years.

Management Discussion & Analysis

The global economy witnessed a modest recovery in financial year 2013-14. However, Indian economy continued its less than 5% GDP growth for second year. The country faced multiple challenges such as capital outflows, volatile current account movement and pressure on other key macroeconomic factors including exchange rates, interest rates and inflation. Customer decision making was further impacted due to uncertainty caused by general elections. Overall macro-economic environment remained sluggish during FY 2013-14. Education sector which is considered to be less affected from economic headwinds reflected a mixed response. The sector faced regulatory challenges and policy threats, but responded with increased efforts to capitalize large growth opportunities available in all education verticals.

Opportunity in School Education

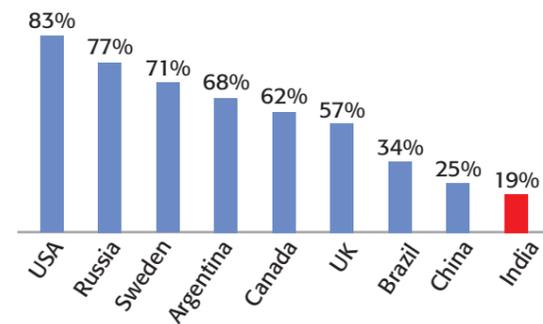

At 315 mn, India has the largest student body in the world, as per census 2011 data. It is larger than China's student population of approximately 252 mn, as per Unesco statistics and even bigger than total population of the US of 318 mn. However, India ranks among the top five nations where kids aged 6 to 11 are out of school, as per Unesco's Education for All (EFA) Global Monitoring Report on out-of-school populations. India has 1.4 mn children who have not availed primary schooling out of total 57.8 mn globally. Good news is that there is an improvement at global level. There were 99.8 mn children who were out of school at primary level in year 2000. EFA has a goal of universal primary education by 2015.

Since RTE (Right to Education), there has been a significant progress in India's school system – at least on quantity parameters. Around 11.18 mn more children have enrolled in schools in last three years. Private institutions have also played an important role in the country's education ecosystem where approximately 40% of school students and 60% of college students are enrolled in the private institutions and further increasing. However, the performance on quality measure has not been so impressive.

The status of education in public school is abysmal. As per a report by HRD ministry, out of total public schools at primary level in India, 31% do not have girls toilet, 43% do not have playground and 39% do not have boundary. 63% of the schools have teacher student ratio of less than 1:30. These are the few reasons that about 7.5 mn students do not complete their schooling. The drop-out rate is 27% till class V and 40.6% till class VIII. According to the Annual Status of Education Report (ASER) 2012-13, 53% of Class-V students cannot read Class-II books. In 2012, the Organization for Economic Cooperation and Development (OECD) released their triennial Program for International Student Assessment (PISA) report, which ranked two states of India- Himachal Pradesh and Tamil Nadu- 72nd and 73rd out of the 74 countries it inspected.

Opportunity in Higher Education

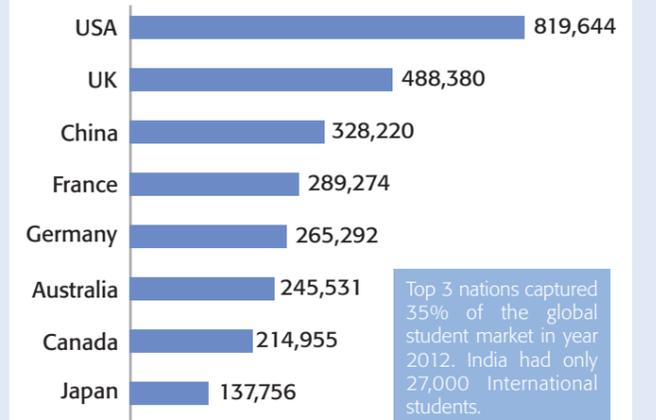

GER (Gross Enrollment Ratio) in Higher Education at India is just 19.4% (Urban: 32.5%, Rural: 13.9%)

At higher education, Gross Enrollment Ratio (GER) for India is 19.4% against 83% in USA, 77% in Russia, 35% in Brazil and 25% in China. India stands nowhere near the top in the list of countries with international students. The reason for India's low GER and international students can be attributed to lower expenditure on research and higher education. As per a report by the Observer Research Foundation (ORF) – a think-tank, India has one of the lowest R&D spend to GDP ratio in the world. The country invests only 0.88% of GDP into science research compared to US's 7-8% and South Korea's 3-4%. Moreover, more than 25% of India's R&D spend goes in to basic research, which has weak connection to economic growth. China spends only 5% on basic research. The report also highlights that science education at undergraduate level tends to be highly theoretical. This structure results in 'teach more and learn less' against ideal of other way round.

Indian education system needs significant investment on infrastructure, pedagogy, assessment, technology, and teacher quality. As per a comment from finance minister, the country is at a stage where its so-called "demographic dividend" will be bereft of any meaning" unless steps were taken to improve the country's quality of education. Various reports have indicated that India's demographic advantage, with about 60 percent of the population being under 25, may turn into a liability in the future if the education sector fails to provide necessary employability skills to young generation.

Opportunity in Education Tourism

We believe that every child deserves quality education. There is an urgency to cut license raj and bring efficiency in functioning. Quality standards of course curriculum are required to be improved through nationwide assessments. Learning outcomes are required to be included in Result Framework Document (RFD). Colleges should tweak their courses in tune with an evolving business environment and equip students to deal real-world demands.

Financials

In financial year 2013-14, the income from operations on standalone basis was reported at rupees 54.14 crores with year-on-year decline of 23.3%. It was due to enrollment dip of 26% at tutorial services division. The down side effect in revenue was reduced at consolidate level by increased contribution from formal education division. At consolidate level, the income from operations came at rupees 65.2 crores with a decline of 16% against previous year.

The contribution from the formal education division including lease rental and auxiliary education services has reached nearly 20% of total income compared to 10% in previous year. Total income including the other income on consol basis stood at rupees 78.01 crores against rupees 97.25 crores in year 2012-13. A decline in other income can be explained by one-off revenue which was realized last year from sale of fixed asset in company's Infra subsidiary.

The company reported operating EBITDA of rupees 9.68 crores on consol basis with an operating EBITDA margin of 15%. Despite lower cost of study material and a minimal increase in other operating expenses, a year-on-year decrease in EBITDA was primarily due to the drop in top-line at tutorial services division. The addition of residential campus and capitalization of new buildings from work-in-progress at formal education units resulted an increase in depreciation charges. The net Income was realized as Rupees 9.44 Crores for the full year with margin of 12.5% on consol basis.

As on 31st of March 2014, the net worth of the company was rupees 3.25 billion and it had rupees 36 crores of net cash and cash equivalents. Risks and Concerns

With having the business operations in different industry segments, Career Point is exposed to variety of external and internal risks. Though the company has a robust mechanism for risk management in place, however, complete risk avoidance on all the financial, operational and strategic objectives cannot be promised. Boards of directors and management of the company regularly review and aim to mitigate various risks related to regulatory, competition, geography, human resource, technology, legal, political etc. The company recognizes following key risks to its business operations which may adversely affect the financial performance of the Company:

Regulatory risk: Any changes in regulatory norms on the Formal as well as Informal Education front may significantly impact the investment made in education by the Company. The Company is continuously making an effort to upgrade its services, leveraging technological advancements, expanding the product portfolio to minimise the regulatory risk, if any.

Decrease in student enrolment: With the increased competition, the Company might face a risk of decline in student enrolments. However, the Company's focused marketing strategy (which includes direct and indirect marketing) continues to attract students across its courses

Pressure on margins: There could be a margin pressure due to staff costs, cost of study material, high advertising and business promotions, etc, going forward. We believe the Company has sufficient tools to counter these factors, if the same arises.

Attrition: Attrition in the senior management/faculty team may impact the business. The Company's strategy for retaining talent involves offering competitive compensation packages, faculty training system in place for new entrants and existing faculty, along with a healthy working environment.

Geographical concentration: The Company derives the larger share of its revenue from Kota, Rajasthan. Hence, any disruption in operations, or competition at this location could impact overall operations significantly. The Company is making a concerted effort to expand its operations pan-India, overseas and is also boosting its Distance Learning segment.

Internal Controls & Systems

The Company has proper and adequate internal control systems, which ensure that all assets are safeguarded against loss from unauthorized use and all transactions are authorized, recorded and reported correctly. The Management continuously reviews the internal control systems and procedures to ensure orderly and efficient conduct of business. Internal audits are regularly conducted, using external and internal resources to monitor the effectiveness of internal controls. The CEO and CFO certification provided in the CEO and CFO Certification section of the annual report further discusses the adequacy of our internal control systems and procedures.

Outlook

Despite challenging market dynamics, we continued our focus on sustainability of our operations and committed to increase the quality of academic deliverables while maintaining the cost efficiency. The delivery of a reasonable performance further underscores the fact that the company has a well-balanced business model with diverse revenue streams which can counter any adversity. It draws attention that how well the team has remained focused on its core business strengths.

A significant and increasing contribution from the formal education division during the year promises a long-term sustainable business to the company. With having its presence at every level, the company is now strengthening by broadening the product portfolio, leveraging the fast and cost effective technology solutions and increasing geographical presence through organic as well as inorganic routes. Item No. 15:

The existing AoA are based on the Companies Act, 1956 and several regulations in the existing AoA contain references to specific sections of the Companies Act, 1956 and some regulations in the existing AoA are no longer in conformity with the Act.

The Act is now largely in force. On September 12, 2013, the Ministry

of Corporate Affairs ("MCA") had notified 98 Sections for implementation. Subsequently, on March 26, 2014, MCA notified most of the remaining Sections (barring those provisions which require sanction / confirmation of the National Company Law Tribunal ("Tribunal") such as variation of rights of holders of different classes of shares (Section 48), reduction of share capital (Section 66), compromises, arrangements and amalgamations (Chapter XV), prevention of oppression and mismanagement (Chapter XVI), revival and rehabilitation of sick companies (Chapter XIX), winding up (Chapter XX) and certain other provisions including, inter alia, relating to Investor Education and Protection Fund (Section 125) and valuation by registered valuers (Section 247). However, substantive sections of the Act which deal with the general working of companies stand notified.

With the coming into force of the Act several regulations of the existing AoA of the Company require alteration or deletions in several articles. Given this position, it is considered expedient to wholly replace the existing AoA by a new set of Articles.

The Board commends the Special Resolution set out at Item No. 15 of the Notice for approval by the shareholders.

The new AoA to be substituted in place of the existing AoA are based on Table 'F' of the Act which sets out the model articles of association for a company limited by shares.

GREEN INITIATIVE IN CORPORATE GOVERNANCE

Dear Shareholders,

The Ministry of Corporate Affairs (MCA) has taken a "Green Initiative in Corporate Governance" by allowing paperless compliances by the Companies through electronic mode. In accordance with the circulars issued by the MCA during April and May 2011, companies can now send notices and documents, including Annual Reports and postal ballots to its shareholders through electronic mode to the registered e-mail addresses of the Shareholders.

It is a welcome move for the society at large, as this will reduce paper consumption to a great extent and allow shareholder as well as the companies to contribute towards a Greener Environment.

Your Company also proposes to participate in this Green initiative by opting for e-mailing all the future shareholder communications henceforth including notices of Annual General Meetings and Annual Reports of the Company to those shareholders opting to receive the same in electronic mode.

To support this green initiative of the Government in full measure, members who have not registered their e-mail addresses, so far, are requested to register their e-mail addresses, in respect of electronic holding with the Depository through their concerned Depository Participants.
